Who’s Hungry?
Mayor Barnum likes the idea of providing some revenue to the town by including a snack bar. Of course, health regulations require that the snack bar be in close proximity to the restrooms, and the Mayor wants the snack bar close to the intersection of the paths as well!

Place the snack bar in the park.
Details:
- The shape of the snack bar is similar to (but smaller than) the shape of the playground area.
- The dimensions of the snack bar are half those of the playground area and the figure is rotated 180 degrees.
- The snack bar is on the western edge of the park.
